

UNIVERSITY OF SZEGED
FACULTY OF DENTISTRY
INVITES YOU TO ATTEND OUR FIRST OPEN
PRACTICE!

To be a dentist is a challenging profession; a dentist needs solid theoretical knowledge and good manual skills as well. Therefore, our Faculty decided to give an opportunity for future students to see what happens in a preclinical practice in the first years of the education.

We invite our prospective students to a small practice. Here you can try your skills.

There will be easy tasks to do with your hands. What? This will be a surprise.

DATE: 21 April, 2018. 10.00-12.00 (Saturday)

**VENUE: Building of the Faculty of Dentistry, 2nd floor, Students Laboratory
6720 Szeged, Tisza Lajos körút 64-66.**

If you would like to participate, please send a message to Borbála Váró. We need to know how many students attend the practice to be prepared for that.

When you arrive, please register.

How to get here?

You can arrive by train or car. From the railway station choose the tram Nr. 1 or 2 and get off at Aradi vértanúk tere.

Parking is free Saturdays, there are parking places around the building.
