### Specific conditions for training supported by a Hungarian state scholarship:

Act CCIV of 2011 on National Higher Education, § 48/A-S.

[http://net.jogtar.hu/jr/gen/hjegy\\_doc.cgi?docid=A1100204.TV#lbj106param](http://net.jogtar.hu/jr/gen/hjegy_doc.cgi?docid=A1100204.TV#lbj106param)

## Credit System

### 1. Basic concepts of the credit system

**credit:** a unit for measuring student's academic work of a course or curriculum unit which expresses in respect the estimated time necessary for acquiring the defined learning outcomes and meeting the requirements; one credit represents thirty academic hours on average, and the value of credit does not depend on the assessment of the learning outcome acquired by the student, provided that the student's performance was accepted.

**criterion requirement:** a condition enclosed to the commencement of a period of study, the registration for a subject, the taking of a final examination, or the awarding of a diploma, which serves the quality or prevents excessive prolongation of the studies.

**criterion subject:** a subject constituting a criterion-condition, for which no credit is assigned as a general rule. (Pl. summer practices, PE, etc.)

**study plan:** The order and schedule of subjects offered to students enabling them to obtain the qualification within a specified period of time.

**credit transfer:** the process, as set out in the Policy, whereby a previously completed subject or knowledge acquired through non-formal, informal learning of the curricular learning obligations, of one or more subjects, is taken into account and is recognised as a full or partial exemption with credit, with or without conditions. A specific form of credit recognition is validation (see also: validation).

**subject programme:** a description of the knowledge to be acquired in a subject and the general conditions for its achievement, including at least:

- the name of the subject,
- the name of the department responsible for teaching the subject,
- the number of credits to be gained by completing the subject,
- obligatory and required units of the subject,
- the form of teaching of the subject (units),
- the number of teaching hours per week (semester),
- credits for the subject,
- the conditions for obtaining the credit and the form(s) of the examination(s) (colloquium, term mark, report, foundation examination, comprehensive examination),
- type of assessment (five-level grading scale, three-level grading scale, two-level grading scale),
- the prerequisites for taking up or completing the subject,
- the task and purpose of teaching the subject,
- thematic description of the curriculum,
- the definition of learning outcomes in terms of knowledge, skills, attitudes and autonomy- responsibilities,
- indication of the written curriculum.

**Registration to a course:** an advertised lecture, tutorial, seminar or exam in a subject.

**Prerequisite study condition:** a set of subjects, obligations, the fulfilment of which is a prerequisite for taking up another subject (course), the fulfilment of a study obligation.

**Active semester:** the semester for which the student is validly registered

**Passive semester:** a semester in which student status is suspended

**Concurrent course:** the student is also enrolled in a non-associable degree programme at another university/higher education institution in addition to the course at the faculty.

**Transfer:** a course of study required by the curriculum is acquired through the completion of a course taught to students of another faculty or institution of the university.

## 2. Conditions for obtaining a doctorate in dentistry

- Earning a minimum of 300 credits and fulfilling the criteria as specified in the curriculum,
- The language requirement for the award of the diploma of Doctor of Dental Medicine (for students starting from the academic year 2017/2018) is a state-recognised intermediate level (B2) complex language examination in English or German, or an equivalent school leaving certificate or diploma.
- Successful completion of the final examination, which includes: thesis, written test examination, practical and oral examination.

## 3. Key aspects of credit accumulation

**Credit accumulation:** the process of accumulating credits by adding credits earned previously to those earned later, until the student has earned all the credits required for the degree.

To obtain the degree, the student must have accumulated 300 credits, fulfilling the criteria for the course. In a credit-based programme, it is possible to develop an individual curriculum for each semester, which may differ from the syllabus offered by the Faculty. The model curriculum provides for an average rate of progression and the possibility of obtaining the degree in 10 semesters. Students are therefore advised to follow the Model Curriculum.

The structure of the curriculum in the dental training programme consists of 7 modules. Each module, subject or subject element has a credit value.

### **Subject groups:**

**Compulsory subjects:** students must complete all compulsory subjects during their studies. Compulsory courses must be fulfilled by all students. Compulsory subjects: 258 credits within the total number of credits.

### **Compulsory elective subjects:**

- For the 9002K\_N\_2013 degree programme: compulsory electives from the advertised courses, worth 25 credits out of 300 credits.
- 9002KFOG\_N\_2022: compulsory elective courses from the announced courses, worth 15 credits out of 300 credits.

### **Elective courses:**

- For the 9002K\_N\_2013 degree programme: optional from among the courses advertised, up to 17 credits out of the total number of credits required for the degree.
- 9002KFOG\_N\_2022: free choice of courses from the advertised courses, up to a total of 20 credits within the total number of credits required for the degree.

**criterion requirement:** a condition enclosed to the commencement of a period of study, the registration for a subject, the taking of a final examination, or the awarding of a diploma, which serves the quality or prevents excessive prolongation of the studies.

**module:** an interdependent unit of the curriculum comprising several subjects

## 4. Timetable of studies

The academic year consists of two semesters. Semesters consist of an educational period and an examination period. The timetable for the academic year (academic calendar) is set by the University Senate. Classes last 45 minutes, with 15-minute breaks between two theoretical classes.

## Semester schedules for 2024-2025 academic year

### I. st semester

Education period: 09.09.2024. – 14.12.2024.

Examination period: 16.12.2024. – 20.12.2024.

02.01.2025. – 01.02.2025.

Repeat examination period: 03.02.2025. – 08.02.2025.

### II.nd semester

Education period: 10.02.2025. – 24.05.2025.

Spring break: 14.04.2025. – 22.04.2025.

Examination period: 26.05.2025. – 05.07.2025.

Repeat examination period: 07.07.2025. – 12.07.2025.

## **SCHEDULE OF FINAL CLASSES 2024-2025 academic year**

**The semester for graduate students will be reduced to 12 weeks from the 2021-2022-2 semester due to the scheduling of the written final examination at the same time with the partner universities.**

### II.nd semester

Education period: 10.02.2025. – 02.05.2025.

Spring break: 14.04.2025. – 22.04.2025.

Examination period: 05.05.2025. – 06.06.2025.

Repeat examination period: 09.06.2025. – 13.06.2025.

\* The 7th week of the examination periods is a retake examination period, in which only missed revision examinations and retakes are allowed. A student who has only one failed examination left in the examination period may take a third make-up examination, subject to the approval of the Department of Studies

## **5. Enrolment/registration**

Students who have the right to start their studies must enrol for the first semester of their studies. The student's status is established upon enrolment. A student who is not enrolled loses the right to begin studies. A student who has acquired the right to continue his/her studies must enrol for at least one credit of the courses in his/her degree programme by the end of the enrolment period. Failure to do so will result in the suspension of the student's status for the semester in question.

No further enrolment is required during the period of student status. Before the start of the study period, the student must declare whether he/she will continue his/her studies or suspend his/her student status during the study period in question, as specified in the SZTE Study and Examination Regulations.

After enrolment/at the time of registration, the student takes courses in the uniform study system (NEPTUN) in the student course enrolment period according to the model curriculum.

### **Taking an exam course**

#### *FOK Study Regulations*

*5.3 It is possible to complete a course not taken by taking an examination course or by repeating the course in its entirety. A maximum of 2 examination courses may be taken in a semester. Eligibility for an examination course is conditional on having attempted the examination at least once. Uncompleted practicals may not be taken as examination courses.*

*Please note that you must apply for admission to an examination course by submitting an application to the Board of Studies in MODULO during the course enrolment period! You should only take an examination course if you have been authorised to do so by the Board of Studies.*

*Please consult the university NEPTUN calendar <http://web5.etr.u-szeged.hu:8080/naptar/> for important dates for the academic year (opening/closing of course enrolments, opening/closing of examination registrations, etc.).*

## **6. Examination and examination procedures**

The student registers for the examinations on the dates announced by the departments and institutes. At the university, it is possible to withdraw from the examination by cancelling the registration 24 hours before the start of the examination. An unauthorised absence from an examination is considered as a used examination time, which reduces the number of possible retakes.

A student may retake an examination in a given subject two times in the same examination period.

If the student fails to meet the semester acceptance criteria for theory classes or practicals, no grade or signature will be given.

## 7. Language training

Latin language for dental students Criterion subject, without credit. Compulsory in the first semester, 2 hours per week.

The foreign language courses are offered as an optional subject for students without a "C" intermediate level language certificate. This course is offered free of charge over 4 semesters, 2 hours per week, and is designed to prepare students for the state or international language examinations in German and English. Each semester ends with a practical grade, worth 2 credits.

The specialised dental language (English, German) is recommended for students with an intermediate language examination 'C'. The course provides 4 semesters of specialist dental language in English or German in the preclinical and clinical modules. Courses are announced as compulsory electives and are worth 2 credits per semester, culminating in a practical credit per semester.

## 8. Physical education

In the criterion subject "Physical Education", the student is required to attend 2 physical education courses 2 hours per week during the first four semesters. All further course attendance is subject to a fee.

## 9. Calculation of the learning outcomes

Average academic result: the average result is calculated every semester on the basis of an algorithm established centrally in the TR and uniformly for the whole university.

The scholarship is determined on the basis of the adjusted credit index average, in accordance with the University Scholarship Regulations.

At the University of Szeged, the scholarship is paid according to the "Regulations of the University of Szeged on the conditions and determination of the scholarship". The regulations are available on the university website [www.u-szeged.hu/szabalyzatok](http://www.u-szeged.hu/szabalyzatok).

Your attention is drawn to § 2 1/c of the regulations:

"(c) in the case of a health-related course of study, the student has completed all the courses in the course of study taken into account for the scholarship in the last active semester preceding the semester in question and has taken all the courses (or the corresponding course) for the first time in the semester in question."

Students who meet the scholarship criteria will be placed in scholarship hats according to the regulations.

Students can view their current scholarship calculation information in the Module:

<https://modulo.etr.u-szeged.hu/Modulo2/default/forms/details/1053102>

When planning their studies, students should consult the scholarship hats, which will enable them to plan their studies and avoid being placed in a scholarship hat to which they are not yet entitled on the basis of their model curriculum, with the consequence that they will not be eligible for a scholarship.

## 10. Credit for studies at another higher education institution

Credit points earned at other higher education institutions in Hungary or abroad may be counted towards credit accumulation, the Faculty Credit Transfer Committee decides on the acceptance of such credits. Two subjects are considered equivalent if there is at least 75% correspondence between them. A substitute course taken at another institution may be credited with the number of credits allocated to the substitute course in the curriculum of the dental school, but the credit obtained may not be modified. No transfer of credits is possible for final examinations or theses.

Credit transfer applications can be submitted in the MODULO system during the specified submission period (University NEPTUN calendar <http://web5.etr.u-szeged.hu:8080/naptar/>).

**11. The Mobility Coordinator:** his/her task is to inform the students and staff of the Faculty about the opportunities for students, lecturers and administrative staff in higher education, to prepare the evaluation of the applications received, to follow up and close the applications. Liaising with the International Directorate of the University of Szeged and the Faculty's Student Administration Unit. Receives inquiries from abroad, visiting students.

**12. Disability Coordinator:** According to Article 108 § 6 of Act CCIV of 2011 on National Higher Education, a student with a disability is a student who has a motor, sensory or speech disability, autism spectrum disorder or other mental developmental disorder (severe learning, attention or behavioural disability). The Faculty Disability Coordinator is responsible for supporting and assisting students with disabilities who are studying at our Faculty.

### 13. Procedural issues

The Academic Board and the Credit Transfer Committee, established by the Faculty, act in the first instance in matters of students' studies and examinations, while the Dean of the Faculty acts in the second instance.

In all matters concerning studies, examinations and scholarships, the legislation in force and the University and Faculty regulations are applicable. <http://www.u-szeged.hu/szabalyzatok>

#### ***Submission of student requests***

As of 1 March 2011, only student requests submitted via the MODULO system will be accepted by the Academic Department.

The Modulo system can be used with the username and password used in the NEPTUN system, if you have any problems with this, please contact the Help Desk at

[https://service.neptun.u-szeged.hu/neptun/SZTE\\_Pass.aspx](https://service.neptun.u-szeged.hu/neptun/SZTE_Pass.aspx) for assistance

For information on how to use Modulo, please visit <http://modulohelp.dexter.hu/hu/home>.

For information on how to deal with a case, please refer to the case descriptions for each form.

The student forms are located under the FOK TO submission area, except for the State Board Examination Application Form, which is located under the FOK TO submission area.

You can also apply for the Student Status Certificates through Modulo, under the HSZI submission place.

For general information and assistance on using the system, please contact the HSZI Help Desk or the Academic Office.
